EPWRF India Time Series

Expansion of Banking Statistics Module
(State-wise Data)

The Economic and Political Weekly Research Foundation (EPWRF) has added state-wise data to the existing Banking Statistics module of its online India Time Series (ITS) database.

State-wise and region-wise (north, north-east, east, central, west and south) time series data are provided for deposits, credit (sanction and utilisation), credit-deposit (CD) ratio, and number of bank offices and employees.

Data on bank credit are given for a wide range of sectors and sub-sectors (occupation) such as agriculture, industry, transport operators, professional services, personal loans (housing, vehicle, education, etc), trade and finance. These state-wise data are also presented by bank group and by population group (rural, semi-urban, urban and metropolitan).

The data series are available from December 1972; half-yearly basis till June 1989 and annual basis thereafter. These data have been sourced from the Reserve Bank of India’s publication, *Basic Statistical Returns of Scheduled Commercial Banks in India*.

Including the Banking Statistics module, the EPWRF ITS has 18 modules covering a range of macroeconomic and financial data on the Indian economy. For more details, visit www.epwrfits.in or e-mail to: its@epwrf.in

INTERNATIONAL INSTITUTE OF
INFORMATION TECHNOLOGY
HYDERABAD

ADVERTISEMENT FOR FACULTY RECRUITMENT

International Institute of Information Technology, Hyderabad invites applications for posts of Assistant Professor, Associate Professor, and Professor in the disciplines of Political Science, Philosophy, Economics and History. We may also consider candidates in the disciplines of Anthropology, Sociology, and Literature.

IIIT-H is known as a research-focused university excelling in all aspects of information technology and its application to other domains. We wish to bring this research-focused pedagogy to our innovative new dual degree programme where students take courses in Computer Science and the Humanities and Social Sciences. Students are also required to produce a research dissertation which brings together methods, perspectives, and problems from both streams. IIIT-H also offers a range of general humanities and social science electives in its other undergraduate programmes.

Selected faculty will be expected to have a strong research foundation, preferably with a track record of inter- and multi-disciplinary work, and should be willing to supervise undergraduate and posts-graduate research in the humanities and social sciences apart from teaching courses at various levels. Interested candidates should have a Ph.D in the listed disciplines or show demonstrable research in the humanities and social sciences if from other disciplines. IIIT-H is happy to consider candidates from all nationalities who are willing to work from Hyderabad. Candidates should email their application along with a CV, research and teaching statements, and a list of academic referees to facultysearch@iiit.ac.in with a subject heading: HSS Faculty Search. IIIT-H offers competitive compensation and other benefits, including a start-up package based on the background of the candidate.
